Rabia Dila Öztürk

Urban Planner

GIS • Spatial Data • WebGIS

PROFILE

Graduate of Dokuz Eylül University in City and Regional Planning, working with GIS, spatial data production, remote sensing and geospatial databases. I combine planning knowledge with Python, SQL/PostGIS and WebGIS technologies to develop data analysis, visualization and decision-support applications.

PROFESSIONAL EXPERIENCE

Sep 2026 – Present

ANKAGEO Geospatial Information Technologies

Data Management and Digitization

Spatial data production and digitization; LiDAR point-cloud segmentation; querying, quality checks and organization of GIS records using SQL and DBeaver; contribution to road-related data production.

Jul 2025 – Aug 2026

ORALL Urban Planning and Architecture

Urban Planner

Zoning-plan reviews and revisions, property and transport network assessments, minibus and shuttle route studies, permit procedures and technical consultancy reports.

2024

Çekmeköy Municipality

Urban Planning Intern

Supported planning-unit workflows, map-related tasks and spatial analysis activities.

TECHNICAL SKILLS

GIS & REMOTE SENSING

QGIS, ArcGIS, Google Earth Engine, GeoPandas, LiDAR

DATA & PROGRAMMING

Python, SQL, PostgreSQL/PostGIS, DBeaver, FastAPI

WEBGIS & DEPLOYMENT

MapLibre, Git/GitHub, Docker, Render, Vercel

PLANNING & DESIGN

Netcad, AutoCAD, CityEngine, SketchUp, Blender, SPSS, Excel

EDUCATION

Dokuz Eylül University

BSc, City and Regional Planning

CONTACT

Istanbul, Türkiye • +90 553 059 92 29 • ozturkdila670@gmail.com

SELECTED PROJECTS & RESEARCH

01 CTC Balance | Transport and Accessibility WebGIS

Istanbul • Independent software project

A WebGIS decision-support application visualizing transport alternatives, PTAL-based accessibility, 500 m grid analyses and inter-district mobility relationships. Python, FastAPI, PostGIS, MapLibre and GTFS data.

02 KOR-İZ | Disaster Risk and Accessibility WebGIS

Konya • Team project

A WebGIS application integrating disaster risk, access to emergency services, assembly areas, transport networks and service-area analysis. Spatial analysis, network analysis and thematic map layers.

03 TÜBİTAK 2209-A | Urban Heat Island Research

Izmir / Konak • Project lead

Investigation of transport-related urban heat island effects and mitigation strategies using Landsat data, LST, NDVI/NDBI, Google Earth Engine and CityEngine-based 3D building analysis.

OTHER RESEARCH & PLANNING WORK

TÜBİTAK 2205 BİDEB: Urban planning research on gender equality and disadvantaged groups. ORALL: Zoning-plan revisions, route planning, conservation and permit processes, and technical reporting.

CERTIFICATES & TRAINING

Netcad (2023) • Archify Izmir (2024) • Climathon (2025) • Good Design Izmir / ÜTAS (2025) • Boğaziçi Institute R&D Projects (2026) • Basic QGIS (2026) • Python for Geospatial (2026)

Portfolio: geotech-dila.github.io | CTC Balance: ctc-balance.onrender.com

DETAILED PROFESSIONAL EXPERIENCE

ANKAGEO | DATA MANAGEMENT AND DIGITIZATION

September 2026 – Present

Spatial data production

Contributed to road-oriented geospatial data inventories, spatial feature extraction from photogrammetric sources and digitization workflows.

LiDAR point clouds and segmentation

Worked with 3D point-cloud segmentation, examination of geometric characteristics and object classes, and extraction of meaningful spatial information.

SQL querying and data quality control

Identified digitized point records with SQL queries; inspected and filtered data in DBeaver and checked record accuracy and consistency.

Database organization

Supported table and schema organization, systematic record tracking and improvements to data management workflows.

ORALL | URBAN PLANNING AND CONSULTANCY

July 2025 – August 2026

Vehicle impound lot – Buca

Reviewed cadastral parcels, ownership, zoning plans, road connections, land dedication and relevant permit and authorization procedures.

Minibus route and road-use rights request

Assessed transport networks and road links and contributed to technical planning for a proposed minibus route.

Additional shuttle route – Selçuk

Reviewed existing transport structure and road network and supported preparation of a proposed shuttle route.

Zoning-plan revision and technical consultancy

Checked plan decisions and map representations for omissions and inconsistencies; contributed to revision work and technical reports.

Listed building restoration and permits

Assessed conservation status, planning conditions and restoration permission procedures.

INTERNSHIP

Çekmeköy Municipality (2024): Compulsory summer internship in the urban planning department.

COMMUNITY & PROFESSIONAL INVOLVEMENT

KENTSEV Foundation | Disciplinary Board Member

OpenGIS Türkiye Community | Mentor
